Try as we might, moms know that sometimes we just can't do it all. That's why we get by with a little help from some rad baby and mommy products.

THINGS TO MAKE MOM SMILE

Milk and Krunchies

If mommy really wants to impress her wee ones, but isn't too crafty in the kitchen, she can leave the cooking up to someone else and order a carton of Milk and Krunchies (\$21 for 6 bars, which actually feeds more like 12!). The droolworthy confections will have youngsters begging for more... and mom, too. Though the peanut butter cup flavor was my personal favorite, kids are drawn to the PB&J combo. DJ AM was so in love with the toffee taste that he became a partner and they honored him by naming that particular bar the DJ AM Toffee.
